

# CompIntelligence

Bring Human Resources & Finance together in a way that truly supports business strategy, operational efficiency, and workforce planning strategies.

## CompAnalytics

### Total Compensation Management

CompAnalytics revolutionizes compensation planning by enhancing collaboration and data integration, uniting HR and Finance. CompAnalytics empowers organizations to align business strategy with operational efficiency, drive workforce planning strategies, and deliver impactful outcomes for both business and employees.

### With CompAnalytics, companies can:

- Ensure all forms of compensation (salary, bonus, equity, & benefits) aligns with strategic objectives.
- Drive employee satisfaction and retention.
- Meet financial targets through precise forecasting and budgeting.
- By solving the challenges of disconnected data, manual processes, and departmental silos, CompAnalytics helps organizations make smarter, more strategic decisions – proactively shaping their workforce and bottom line for long-term success.

### Why CompAnalytics?

Too often, workforce and compensation data are siloed, leading to manual processes and inconsistent forecasting. By unifying these functions, CompAnalytics gives leaders shared visibility, streamlined workflows, and real-time insights—fostering collaboration between the people and financial sides of the business.

### About CompIntelligence

Established in 2002, CompIntelligence has provided Corporate Performance Management (CPM), Business intelligence (BI), and Compensation Solutions for hundreds of mid-sized to Fortune 100 Companies.
